> THE FUTURE WORLD IS HERE <

Dear Resident, we understand that you may have concerns regarding the new DIGITAL 5G mast erected close to your home.

Although we cannot stop the rollout of this new technology, your safety and peace of mind are our top priorities.

This leaflet provides important information on the simple PRECAUTIONS that you and your family can take to keep safe from 5G RADIATION.

TECHNOLOGY THROUGH INNOVATION

5G stands for the fifth generation of wireless technology.

It promises you faster internet speeds and enables unprecedented surveillance technologies.

STRICT REGULATIONS AND STANDARDS

Your mast is being installed following strict GOVERNMENT guidelines set by the International Commission on Non-Ionizing Radiation Protection (ICNIRP)*

CAN 5G CAUSE CANCER?

There is currently no evidence to show that 5G radiation can cause cancer, or that it is harmful to adults, children, pets, crops or the environment**

WHAT PRECAUTIONS CAN YOU TAKE?

- Limit the **TIME** you spend near 5G radiation sources to reduce the amount of exposure
- Increase your **DISTANCE** from the 5G radiation source as much as possible
- Use **SHIELDING**, such as walls or barriers made of materials like lead or concrete, to block or absorb the 5G radiation

* Excludes people with METAL IMPLANTS ** Studies are ongoing
