

Friends

July 2021 challenges vs potential, discussion

Nobody has to take an experimental vaccine, take part in medical trials, be tested or mask their face, risking harm to them or others.

Everybody has natural inalienable sovereign rights to live free, choose what they agree to, neither causing or accepting any harm, but volunteers to be DNA altered hybrids, risk arguably losing their natural human being rights.

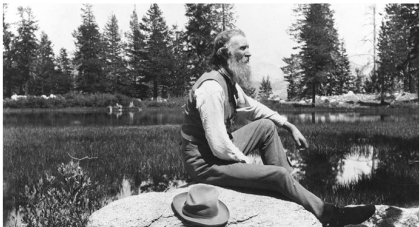

Ample clear evidence proves a disturbing hostile global coordinated establishment structure of control existing for a very long time, has planned and rolled out this pandemic torture towards its agenda that includes huge population manipulation, reduction and subjugation.

We all live in this world together, where we know we are all somehow naturally connected. The fate of our individual lives and that of all our children and future generations, will be enhanced with empowering bright opportunity or suffer dim disempowering vulnerabilities, depending on our level of care, understanding, guiding principles, vision, choices and actions.

"When we try to pick out anything by itself, we find it hitched to everything else in the Universe." John Muir (1838-1914) Scottish pioneer against the degradation of nature and humanity, which have mutual and inseparable sensitivities.

Introduction

'Friends' is a sentiment not the name of yet another group. There are so many groups forming and disbanding all the time and those involved in developing this booklet are involved in many good groups and projects, some of which are linked in this publication.

The chosen content for this booklet is hopefully enough to highlight clear recurring evidence, that inspires more introspection, careful reasoning and bright critical thinking, toward better informed choices and decisions.

Obvious and uncomfortable questions / answers arising in conversations around the world, between reasonable caring people, genuinely seeking truth and progress out of the current confusion, are explored here. We chose a conversation format of questions and answers, to lay out what we have discovered and discerned, because there are so many good questions that need answering, many of which people don't know to ask.

The only agenda of this booklet is pursuing more understanding of truth through evidence of influential facts, tested together by logical reasoned discussion and introspection, to find positive certainties, that help us all realise our potential, versus falling prey to lies, fear or manipulations.

When people get together for heart to heart talks, even as strangers, they can resonate and become great supportive friends. We are merely a group of friends appealing to readers as friends to engage with us and others, to investigate appreciable big threatening challenges together.

Anyone feeling and believing there is nothing worth talking about, they don't care, the world is how it is, people have no power, talking does nothing, nothing will ever change, we deserve what we get, the world is finished; may feel this booklet is promoting deluded conspiracy theories.

Anyone feeling there are crucial questions to ask and answers to demand because our lives could be much better, may value the kind of explorative fruitful conversations we are trying to encourage and facilitate.

"Our lives begin to end the day we become silent about things that matter."

Rev. Martin Luther King Junior (1929-1968)
American human rights pioneer, asserted the principles of equality, character and faith for all.

Initial Questions and Answers

Why do some people not believe the mainstream media including BBC?

People who have looked at alternative media, done their own research and listened to independent journalists and whistle-blowers have seen many highly credible details and stories not covered or denied by the **BBC**. The unwavering unnatural consistency of views seen across all **MSM** has then seemed very suspicious and coordinated like propaganda. Continued comparison of **MSM** to actual experiences, good independent journalists or alternative media sources brings more revelation of deceit.

Why do some people not want to wear masks?

Some people in their common sense feel **masks** cause more harm than good by lowering body oxygenation, raising fear and anxieties, trapping exhaled germs which become concentrated in **masks**, breathed back into the body risking respiratory issues. Also, inhaling plastic coatings and fibres from **masks** has been proven to cause severe bronchial issues. Proven research ([Evidence Page No.1](#)) shows wearing **masks** was the main cause of deaths in the 1918 Spanish Flu, by causing fatal upper lung area infections, proving common sense instincts against masks. People have also learned **masks** are used to subdue and silence slaves not just in satanic mere symbology, but for cruel known adverse psychological effect / torture which they refuse to accept upon themselves or children.

Are children at more risk with masks and vaccines?

The effect of imposing masks on **children** in their formative years seems very serious perhaps criminal ([Evidence Page No.2](#)). **Children** are also the future, carrying forward vast data in their DNA, a legacy treasure trove of instincts, hopes and dreams from ancestors, all threatened by vaccines.

Why do some people not want to take Covid19 vaccines?

Many people know they have a choice and do not want the risk of new DNA altering dubious **vaccines** with permanent uncertain effects in them, rushed out via dubious emergency powers with no liabilities for any harm caused. Some wish to be in the comparative control group who do not take the **V**. Some have looked up history, records and interconnections of companies producing the **Vs** and felt they cannot be trusted. Many feel there's more risk in the **V** than the flu type virus or its mutations danger which their immune system naturally defeats with 99.8% survival, even without taking supplements or simple preventative treatments.

Why do some people not want to support demands for vaccine passports?

This is seen as a further unlawful dictated imposition, without informed public consent to identify and isolate non compliant individuals, with terrible scope to control and limit the lives of any remnant of dissenters. Basic vital human rights principles around medical privacy, individual body sovereignty and freedom of movement are threatened by this proposal.

Why should we have any doubts about the consistent advice of global agencies, governments, mainstream media science and celebrities?

Global non governmental agencies like the World Health Organisation are run by unelected leadership beyond the control of any country. Global agencies exercise great power over our lives through rolled out policies from secret meetings of the Bilderberg Group, Trilateral Commission, Council on Foreign Relation, International Monetary Fund etc. Their ideas are lockstep endorsed without question, parroted dubiously by MSM.

Did national or regional government question or test costly demands to immediately lockdown countries under advise from NGO global agencies?

Though UK national and regional government have powers and prime responsibilities under oath to look after the population they serve, World Health Organisation Covid19 Pandemic declaration and recommended lockdown measure instructions were followed without question, despite obvious costs and harm. Any amateur researcher can easily find that there are many inexpensive, readily available, well proven and documented preventative and curative medicines and protocols that could have been trialed very quickly. Hydroxychloroquine HCQ + Zinc + Azithromycin or Ivermectin, Chlorine Dioxide ClO₂ were obvious contenders known to be effective against SARS & Covid type viruses. (Evidence page.5) Despite all expertise, experience and resources available to quickly trial such known protections, even for just most vulnerable, WHO dictates were followed. UK leaders effectively surrendered control to WHO rulings, enhanced by emergency powers under declaration of a pandemic. No preventative or curative treatments have been trialed in preference of a swift roll out of experimental new generation vaccine trials under WHO dictated guidance.

Voltaire (1694 to 1798) The French enlightenment philosopher brilliantly observed and stated:

"Those who can make you believe absurdities, can make you commit atrocities."

"I might disagree with your opinion, but I'm willing to give my life for your right to express it."

Should we ignore all dissenting voices against covid19 pandemic lockdown measures, masks and vaccines as deluded, trouble making and paranoid **conspiracy theorists**, to be rounded up and corrected?

Evidence pages included in this booklet concur with credible theorists, suggesting dissenting voices which are snubbed, mocked, censored and considered dangerous, may be truly informative and we should be careful that we are not being misled by scripted propaganda and lies to ignore whistle blowers. If we give no audience to brave truth tellers they may stop coming forward, conversely we could encourage more, by listening.

Are we in a dangerous **pandemic** with no cure, where millions could die from the virus, if we don't comply with recommendations and demands?

Annual national and global death rates are much the same as usual for 2019 to 2021 (**Evidence Page No.3**) so there is no obvious need to panic. Some may say the deaths are low because of measures imposed but there was never any significant spike. Flu numbers disappeared as all flu like cases and deaths were put into the Covid19 pile, boosting those figures, which were parroted daily via MSM, spreading great fear. Extra deaths may also have been caused by stress, suicide, lack of hospital treatments and possibly use of masks. 2019 Models by Professor Neil Ferguson, mathematical epidemiologist at Imperial College London, predicting mass global deaths, justifying the **pandemic** declaration imposed lockdowns, proved massively exaggerated, yet baseless lockdowns remain in place and continue, causing criminal harm and losses. As noted HCQ has been available all along, known since 2005 to be a proven cure or preventative medication but was criminally deemed unsafe, withheld and censored, when it could have prevented lockdowns. (**Evidence Pages No.4 & 5**).

If **MPs** work knowingly against national interests is that an act of **treason**?

Taking instructions from any unelected global agency, exerting influence without resistance, over any border or sovereignty, to impose rulings without question or informed consent, upon the population you serve, with obvious costs and harm, is a wilful knowingly performed act of some malfeasance and **treason**. **MPs** should seek and test advice on all matters, but never accept impositions without question from foreign sources. Slippery legal arguments may find a work around or pushback against this accusation, but evidence of available not trialed preventative / curative medications, that could have negated the need to impose lockdowns is damning, which may bring eventually, whole government charges for **treason** and complicity in crimes against humanity, scale of malfeasance.

Is it true that life / health insurance policies may not cover **liability** to pay policy holders if they suffer adverse reactions or death from vaccines?

If you search online you can see companies saying that they will pay out on policies where policyholders are proven to have suffered adverse reactions or death from taking vaccines. However, if vaccines are in their trial period and producers are immune from **liability**, insurers may not be able to pass on their **liability** for you effectively volunteering in a trial.

Are Covid19 vaccines **fully tested** and guaranteed safe, proven by a full **liability** upon the manufacturers for any adverse reactions or fatalities ?

The Covid19 vax programme deployed across UK and the world is trialing new generation gene therapy medical products, that have not passed all usual strict trials / **tests** of adverse reactions and long term implications ([Evidence Page No.6](#)). We are in a global medical trial till 2023 under emergency powers justified by fabricated pandemic declaration. Vaccine producers are immune from any liability again under cover of emergency.

If the sentiment and evidence of this booklet is true, why are most **doctors and nurses** promoting and in compliance with WHO measures?

Chain of command, job description, codes of conduct, salary / pension, license to practice and established protocol influences all determine that staff do and trust what they are told or face hard consequences. Working under stress to comply, and trusting staff around you are doing their best, working in good faith to both take and administer vaccines, leaves little room for questioning. Around 50% of WHO staff and 25% of London NHS staff are refusing Covid19 vaccine (See QR Code) knowing this workplace demand cannot be removed when they go home each night. **Doctors and nurses** who question and stand against harmful / risky procedures and practices have lost their jobs, suffered professional rejection and mockery, dissuading most others from supporting them.

Why are large numbers of doctors and nurses risking their careers and reputation to **speak out** against Covid 19 lockdowns, masks and vaccines?

Despite risks and attacks, with nothing obvious to gain, brave experienced medical professionals have **spoken out**, rejected, condemned and stood against the pandemic declaration, manipulated testing, WHO mandates, lockdown measures, withheld therapeutics like HCQ and pushing of new medical procedure vaccines with recognisable dangers, because of their ethics and conscience. Visit worlddoctorsalliance.com for testimonies.

Why is **hydroxychloroquine** now such a contentious medication when it has been used effectively since 1955 around the world without issue?

This cheap generic medication, not owned under private patent is used weekly in very small doses of 3 to 6mg per KG body weight alongside other medications by millions of people against malaria, lupus and arthritis. A low dose protocol of HCQ has been known effective against SARS or Covid viruses since 2005. Bans, censoring and lies about this product has enabled DS lockdown and vaccine programme harms.

If we are really in a **dangerous pandemic** why is **MSM** not giving hopeful reassurance and useful guidance for boosting our immune system versus fear and why is government not encouraging or subsidising widespread use of inexpensive immune system boosting foods and supplements?

From evidence, it is a clear uncomfortable revelation that our leaders and agencies are in a 'lockstep' conspiracy to maintain fear, withhold remedy, and force acceptance of a hostile hidden agenda, under cover of Covid19.

Are there really important things people do not know because of strong deliberate **censorship**, that leaves them blinded and more vulnerable?

Obviously there are many things people don't take an interest in, not least because they are busy with the needs of their lives. Our eight chosen evidence pages are not trying to shock or manipulate readers, they reveal weighty influential **censored** facts people must consider. Terrible crimes, harm and fraud, are being committed against us, covered up, censored, not fully confronted or prosecuted. Our evidence pages are a wake up call to realise a huge protected global superstructure of hostile, evil hidden influence orchestrates leaders, MSM, academia, judiciaries and agencies.

Can we really **trust** our current leaderships, agencies or government to get us through and permanently out of this Covid19 horror or criminal fraud ?

With the evidence we can see, we reach a shocking and uncomfortable conclusion, we cannot **trust** current leaders. Few people **trust** politicians, who seem to serve themselves or hidden facilitators of their careers not their people. It is a huge leap from that to consider leaders are installed puppets who actually work against us and cause harm by enabling hostile agendas, but that is what evidence shows. Unquestioning total 'Lockstep' complicity in this Covid19 horror, proves as before that governments pose our biggest threat (Democide) sadly not to be trusted. Hidden nefarious, formidable influences seem to install, orchestrate and protect our leaders.

What is the extent and reach of **hidden enemy influences**, in our lives?

We are learning about endless groups or organisations most people know little about, if they have even heard of them yet. Vast unconsented and hostile **influence** is wielded secretly by connected Deep State resources, without election or investigation. The most powerful organisations and groups are led by the same elite individuals, moving around key positions, through revolving doors, wielding huge **hidden influence** for masters with **hidden** hostile enemy agendas against us. Key decisions, appointments, strategies, policies and plans are hatched and rolled out by many **hidden** hands of **influence** through; The Bilderberg Group, The Senior Executive Service of America, The Privy Council of the British Crown, The Pilgrim Society, The Council on Foreign Relations, Atlantic Council, The Tavistock Institute, Frankfurt School, The Fabian Society, The Knights of Malta, The Club Of Rome, The World Economic Forum (Davos) and many more often with changing names for necessary DS cabal secrecy. Many big **influential** organisations are seemingly innocuous foundations, trusts, charities, think tanks, institutes, civil servant groups, not for profit entities, non-governmental organisations or ceremonial gatherings. We need to learn more about these groups, their money flows, recurring elite leadership and their connections via meetings without minutes, and **influence** they wield. Their hidden elite leadership may be the hostile common **enemy** of the people, tyrannically assuming authority to speak for and over us. Evidence shows it is dangerous to investigate these groups or leadership because they are hostile, with an evil longstanding monolithic agenda to manipulate the world toward their imposed one world government, New World Order, over a much reduced, more manageable global population. This **enemy** stealthily consolidated coordinated wealth, power, **influence**, resources and control of every aspect of our lives to make their agenda possible over many generations. Removing protective veils of secrecy to know about them, their names and DS agenda could vanquish this **enemy influence** from our lives and any power they have assumed over us.

If Covid19 was a Deep State **conspired event**, have there been others?

You can see through evidence, a huge array of coordinated assets and agencies who have long planned, funded and brought about the Covid19 pandemic as a **conspired event**, or false flag for a DS agenda, proving the capabilities of the DS. Whether or not the Covid19 DS conspired event will achieve the DS desired mass population manipulation, weakening, reduction and subjugation is uncertain. If you look at other dubious highly influential events that brought about big changes towards DS

agendas, you may see patterns of the usual hidden influences at work, executing their **conspired events**. The assassination of JFK, 9/11, Iraq War and even the Titanic tragedy are examples of very dubious events that hugely benefitted DS plans and don't ring true as presented to us, suggesting alongside evidence and unanswered questions, they and many others, could have been manufactured **conspired events** of the DS. The idea of Covid19 being a DS **conspired event**, can sound crazy or paranoid until you look at the evidence and unanswered questions which correlate with many other highly influential events, enabling the now known DS agenda. The James Perloff book listed in our references is one of many that lays out endless clear evidence of **conspired events** being carried out, blamed on someone, sold hard to the public and covered up truth, with vast resources employed, suiting, protecting or advancing the DS agenda. If this still seems implausible, the Edgar Milne book listed in our references may, like similar other books help explore the highly plausible context of these accusations against a DS existence. The listed JFK movie is worth watching to see that conspired events can be pulled off, hard sold to us and truth covered up because of the vast resources and reach of the DS and their agenda. If all this is true, it is potentially great news, where we do not have to fear humanity succumbing to a world of endless deadly viruses that we will need to hide from. Our trusted, evolved and miraculous natural immune systems are very powerful. If however the DS has not been weakened or neutralised by any global alliance of good forces, we may have to watch out for their next **conspired events** from their playbook, as they relentlessly pursue their evil and hostile agenda.

Do people have a voice to choose their future or are they powerless?

Under eternal common law, people of the world have universal rights of sovereignty and choice, where they are only legitimately governed by consent. No governance has any common law legitimacy without actual informed consent of the people. Unfortunately the people's **voice** is only heard in elections. Many elections may be rigged especially administered by computer systems. We need highly secure, transparent, audited voting before we can know we hear the **voice** of the people. Many new harmful influences roll out over our lives without our expressed informed consent; food additives, vaccines, chemtrails, 5G technology and wars etc. suggesting we have no **voice**. Only new secure voting may bring protected assurance the people's **voice** is legitimately heard. This might be a quantum computing voting system, but as ever, who will control the controllers of any new system to guarantee the **peoples' voice** rules.

Mark Twain (1835 to 1910) American writer, humorist and lecturer, pointedly and insightfully observed:

"If voting made a difference, they wouldn't let us do it"

Joseph Stalin (1878 to 1953) Russian murderous dictator knowingly revealed and warned:

"The people who cast the votes don't decide an election, the people who count the votes do."

Is **Donald Trump** working for the people of the world within some global alliance force for good, or against the people as a Deep State player?

Discussing **Donald Trump** is a highly sensitive and contentious subject but too influential to ignore. Being a billionaire who socialised with horrible DS players and that he recommends vaccines, suggests his slogans against the DS Swamp, may be an act, though the DS MSM genuinely do hate him, but used to love him. To be fair, he has held many consistent views all his life which he enacted in his presidency and if we can and we should ignore DS MSM incited hatred, we could consider he may be working hard for the people. It does seem logical to consider that with his fame and wealth he could have, as he has said, just enjoyed the remainder of his life. Instead at age 70 with the support of his wife, when others retire, he took to the horrifically vicious battlefield of politics, to take on the most challenging leadership role in the world, of American President. He declared himself so dangerously against all corrupt DS establishment rigged systems, and works grueling long hours with great energy. No matter what he achieves, or promises he keeps, the MSM dubiously very seldom praise him but relentlessly, unreasonably seek ever new angles of attack. He has claimed the MSM and all other deep state forces are not really out to get him, they are out to get completed control of the people and he is in their way. He might be out of power now and we the people are being ravaged by DS unhindered agenda plans, with no obvious leader helping us. Taking to the battlefield of life in such a huge way for principles, despite dreadful threats and risks to him and his family, for no obvious commensurate rewards, could mark **Trump** out to be a contender for the greatest president and world leader ever, if his slogans prove true. If investigations of the 2020 election prove true, we may see **Trump** return to leadership and prove whom he serves. Or he may slip away, leaving supporters and dependents in ruin with broken dreams of a brighter future, with no military coming to save the people from DS forces and their New World Order Agenda.

Following Questions and Answers

Is Covid19 a natural **Pandemic** or a wicked Deep State '**Plandemic**'?

Covid19 could be a deep state creation, long planned release bioweapon virus, from a P4 lab in China in late 2019 to facilitate global controls. Roots of this latest among many manmade bioweapon deployments by the DS, may be connected like others, to 'Operation Paperclip' initiatives that salvaged DS criminal wicked scientists after the fall of Germany in World War 2, moving under cover to America to try again for world domination. DS agendas using populations as lab rats in their petri dish, experimented on, culled and controlled as needed, may never have halted. Whether targeting whole populations or individuals with unconsented applications of technologies or medications, they have no restraint or morality. The DS in America with all its' connections and beliefs, facilitated and protected many top secret activities including bioweapon developments at facilities like Fort Detrick, Maryland & Plum Island, New York. DS infiltrations with bought out ownerships, hijacked many industries, patents and chains of command to build out a complex, protected military / industrial structure with hidden weapons, connections and assets. Good leaders in research, intelligence, law enforcement and military try to resist and contain such known activities but are hampered by powerful legal or chain of command protections. Any effective attempt to expose, confront or defeat DS assets and plans was always futile and suicidal because of their highly vigilant resources, weapons and attack dogs. Most good people, who know enough, see the DS control and understandably feel impotent to fight such danger, perceiving inevitable outcomes, forcing most to play along.

Some research like dangerous gain of function weaponisation via gene editing / DNA splicing CRISPR type technology was banned in America causing that work to migrate to the uninvestigated DS stronghold China. DS Obama and leaders like Anthony Fauci of the private Centre for Disease control (CDC) funded, alongside Bill Gates, the formation of the only P4 high level biosecurity lab in Wuhan, China. USA DS owned scientists from Yale etc. helped set up, fund and steal research for use in this lab. As part of many long planned DS option activities, toward their global one world government tyranny and population reduction agenda, a global pandemic was always a powerful option. Through other DS assets they normalised pandemic expectation for many years through movies like 'Contagion' so when it happened people could believe it was inevitable natural and not suspicious, to accept outcomes with minimal resistance or outrage.

This virus had to be called Chinese because the long explanation of it being a Deep State bioweapon, facilitated through America is too much to explain. The 2019 DS ran 'Event 201' in New York, was the hiding in plain sight believable final preparation, run through, of how this planned event '**Plandemic**' would roll out and have its' credible desired effect. The Wuhan Military Games in late 2019, with over 100 countries helped facilitate DS assets in NATO and other groups to control, deliver and spread the infection world-wide with diplomatic immunity. DS controlled WHO leadership, alongside DS China, kept facts hidden and allowed the virus to be spread, resisting news of it escaping or controls against it to be raised. Once sufficiently spread, the WHO played their part facilitating and demanding the desired lockdown items of the agenda.

Linked completion of 5G network coverage was installed across Wuhan in preparation for this **plandemic** event to interact with and amplify the virus as well as later imposed mandatory vaccines, plus offer a complete surveillance and crowd control weaponry. The whole combination was readied for global roll out with no resistance or investigations allowed into 5G, new vaccines, track and trace, total surveillance, chemtrailing particulate infrastructure, censorship, media blackout, social distancing, mandatory quarantine, closed economies, controlled travel or mandatory masks; ensuring max fear, control and vulnerable, powerless populations. All this plus other initiatives, could give **pandemic** declaration cover and believable credibility to justify harsh controls over the global population with brutal swift justified treatment of any dissenters. Considering the credibility of these verifiable insights is leading people to conclude the Covid19 virus is real, but is an unnatural lab created bioweapon, for a DS hostile global control agenda, that we unarmed people can't easily resist.

If ordinary people can learn about hostile DS agendas, the **armed forces of the world must know more, are they for or against the DS in this fight?**

It is unclear if the armed forces of the world are unified in any alliance working for the rights / prosperity of all people, or if they are in hijacked chains of command serving DS agendas as they have done many times. (See James Perloff and Smedley Butler books in references). People of the world suffering injustice, torture, harm, loss, police brutality, forced vaccination and disregard of many human rights, are wondering where are their **armed forces** that are supposed to be the backstop of their protection. Some pundits insist **armed forces** have beaten the DS and what we see is permitted, measured horror to wake us up to hard truths.

If there is an **evil** DS elite establishment cabal, with vast global, hidden coordinated resources, working against the potential of the people of the world, is there any opposing, capable force of **good** that can stop them?

Given the long and patient requirement in consolidated stages over many generations required to execute the evidenced DS agenda, infiltrated hijack of all aspects of governance and judiciary is expected. Therefore it is inconceivable any civil global organisation could get traction to mount a defence. Only a secure country with a huge military force could resist such an **evil** global superstructure. America is the only secure country powerful enough to lead resistance as a force for **good** via its' reinforced armed forces, capable of matching DS assets and handling brutal threats. Given the ongoing horror and spirit breaking torture, being suffered by humanity, manifesting global quarantine stress disorders from this fraud pandemic being permitted, it is hard to believe a global force for **good** exists. Pundits suggesting a **good** military global alliance has beaten the **evil** DS and their agendas, seems laughable to those suffering. We have seen before how **evil** plays defeated to hide planned relocation to greater secrecy to continue its agenda from a whole new level of operating base. If we don't see whole governments, national, regional and local, plus the usual elite suspects being mass arrested soon, we could assume our **evil** enemy DS is not defeated and we can expect their next assault, perhaps under guise of Climate Change Emergency demands upon and over us.

Can and will **America** help save the world from any hostile DS agenda?

America may be the only country in the world with sufficient resources, idealistic will, protective muscle, technology and high legal sanctity in its constitution to act lawfully with sufficient force to overcome coordinated global hostile agendas. This is an uncomfortable thought for some. If **America** is the backstop to prevent a hostile global governance agenda being completed, we must hope they do not fail, or the whole world may fail. Hopeful people in **America** voted for Donald Trump in 2016 and perhaps 2020 to give a seemingly willing leader powerful mandate with trust to enforce restoration of healthy natural law sovereignty, to punish crime and assert fair rights and responsibilities for all. The vision and faith of that culture in **America** could ripple to free and save the whole world from a controlled future suffering hostile agendas of a global elite evil few. Many commentators are certain Donald Trump is part of a global alliance force for good, which has taken down the 3 City State elite DS control pillars of Vatican, Washington and London. They remain certain **America** isn't lost to DS installed Biden, and will soon reveal their victory.

Final Questions, Thoughts and Takeaways

Will enough people be interested to read all of this booklet and consider fully its contents, validity and implications for it to be useful?

This is a great question the writers of this booklet ask themselves and wonder if this is a wasted effort, better spent elsewhere. With endless information circulating from so many groups for so many reasons, we didn't want to just add to that soup, but were hoping we could condense a helpful minimum that people need to know, to navigate this mayhem.

Given what is in this publication, why should people consider exploring further alternative media sources, investigations, evidence, revelations, exposed atrocities and crimes that are so teasing and disturbing, that are not being publicly proven or prosecuted?

If readers consider our evidence, reasoned thoughts and further resources they may feel the compulsion we do, to get involved in this information war. It may be now or never to influence this pivotal time, not least to avoid vaccine or mask damage but also any DS hostile agenda completion. The potential stakes could not be higher and our choices could be very powerful and influential, where more knowledge, not less, can really help.

Carl Jung (1875 to 1961) Swiss famous psychologist, who founded analytical psychology:

"Every human life contains a potential, if that potential is not fulfilled, then that life was wasted"

Will the pandemic declaration continue indefinitely, with some lockdown measures as a **new normal** with everyone including children being forced to wear masks, take ongoing vaccines and accept vaccine passports?

If we the people educate and mobilise ourselves to talk, meet, learn and reason more, we may gain lawful legitimate support from enough good police and military personnel, upholding our refusal to consent, to make it possible to properly investigate this imposed torture. If police, military and intelligence agencies continue to work in 'Lockstep' with this evil agenda, given the vast resources of the DS, actions of ordinary people could be futile and easily quashed, where we may then see our fears manifest in a consolidated, corrupt justified permanent **new normal** tyrannical subjugation. Those who accept DNA altering vaccines may be deemed hybrid, rendered non-human, with patented operating systems and no human rights.

The New Normal
Exposed Agenda

Is one dimension of the battle we are in **'Globalism Versus Localism'**?

Globalism is about gaining free access over any border or sovereignty to dominate, manage and plunder every significant asset or main street, lawfully for an argued greater good. Unaccountable faceless **Globalism** is the dog eat dog opposite of **Localism**. **Globalism** is a key part of the DS agenda to ultimately take everything from the people. President Trump appeared to stand against this and in his UN speech on 24.09.19 predicted *"The future does not belong to globalists, the future belongs to patriots"*. Patriots are those who love and care for their family, community and country, not at the expense of any others, which is empowering **Localism**.

How can ordinary people recognise **propaganda** lies and manipulations to neutralise and remove its beguiling poison from among us?

Propaganda and all manner of psychological trickery is so developed, sophisticated, subtle, powerful and prevalent in our lives not least in MSM that it is hard to see how we remove its manipulations. If we are aware of agendas / agenda requirements / related talking points, propaganda can be spotted and any psychological operations moving towards that agenda. If we share reasoned observations we can question, see and reject new manipulated normalisations. If we cant understand agendas to then spot manipulations towards them, we are vulnerable to strong indoctrination.

Vladimir Lenin (1870-1924) An installed murderous communist dictator of Russia, revealed and confidently boasted:

"Give me four years to teach the children and the seed I have sown will never be uprooted."

Are we actually experiencing some kind of **Third World War** right now?

The scale of challenges and concerns of people is very much global at this time, with global implications from outcomes, which is very much like a third world war raging between DS globalism, One World Government tyrannical impositions VS Common Law national patriotic sovereign rights and freedoms. Hopefully this is an information war, more than kinetic.

Is any imminent **Global Financial Reset** part of or hidden by Covid19?

Most people know there's a vast amount of debt in the world with printed money flows not backed by anything. DS Private central banks, owners / beneficiaries have much of the world held captive in debt that can never be paid. Ideally a good gold backed **global reset** will happen soon to free countries from elite private banks, restore fair currency values, remove dirty money and cancel fraudulent debts, alongside ending Covid19 crime.

What is **Common Law**, versus **Maritime Law** and how can it help us?

Common Law or Natural Law in essence is a seed or blueprint of eternal, inalienable sovereign rights and responsibilities we are all born with, as innocents, to live free, causing nor accepting any harm. This moral code foundation of golden rules for healthy fruitful living, is recognised globally, expressed through many founding documents of cultures expanding on appreciated principles to serve, protect and ultimately prosper all aspects of life. Examples of the 1215 English Magna Carte and the 1791 American Constitution express deeply considered, long recognised key principles that resonate with even the ancient 10 commandments story of Moses.

CL is understood very easily through common sense in the instincts of healthy, honest, caring and reasonable people with principles and ideals. It protects people from harm or from causing harm. Unwell, cynical souls sneering at ideals or appreciation of principles, may not have the clarity of character to value **CL** and object to its impact upon their life. For example **CL** strongly deters crime through swift commensurate punishments out of equal care for both criminals and victims, so both are restored fairly and quickly to their lives, with matters resolved and paid. **CL** principles based on equal rights we are born with, are ideals and laws for living souls with their place on the land. Modern interpretations of law may stop teaching **CL** and claim to have overwritten it's relevance and understanding with new arguments, nuances and precedent decisions, but **CL** and its moral expansions is supreme, and cannot be ever lawfully overwritten. The 1791 American Constitution recognises with great insight the slippery criminal challenges that can arise and conspire against people, spelling out clearly, what is and is not acceptable and lawful, if people are to live as they were born. **CL** assertions could help the people of the world emerge safely and with justice out of this DS agenda pandemic fraud and torture horror.

Maritime Law is in many ways a dark opposite to **CL**, as the law of the sea and the dead, where people of the world are entered into cargo manifest at birth, via certificates, several years later to be claimed as salvaged dead property that never arrived on land to claim rights or freedoms. Also **ML** is complex, riddled with elusive language by design and makes all of life a cynical business, corporation, binding contract or deal. **ML** for hundreds of years has run much of our world cleverly capturing everything like pirates. If however a living person formally declares and presents them self as a living soul on the land, they may find courts

[Occult Art of ML Law](#)

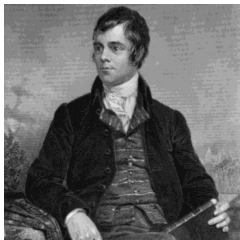

and judiciaries which are operating under **ML** have less rights or powers over them, unless they enter into expressed or written agreement. This is mind boggling and takes time to digest, but once people grasp we actually live within a legal fiction we can step out of, we have a route back to living under **CL** of the land and the prosperous protected freedoms, rights and responsibilities it offers. Hopefully eventual mass movement of conscious, informed people out of all **ML** into **CL** declarations will be part of the end of DS holds over our world. The pace of transition may be slow over years if people remain submissive. For now we remain in a coexistence battle between **CL** and **ML** in our judiciaries where the **CL** natural supremacy is eclipsed fraudulently by creeping 'Lawfare' consolidations of **ML** gains.

If the supreme justice of **Common Law** is asserted for the living souls of our world in their sovereign lives and places of living, we could see an end to cynical **Maritime Law** facilitations of DS agendas with all perpetrators investigated and prosecuted. The scale of DS fraud facilitated by complicit personnel is obviously a massive global challenge to prosecute, and may require a frightening scale of arrests across the structures of our world's governance, business, technology, academia, sciences, military, judiciary and media. Difficult revelations may be followed by a very bright future.

Are you hopeful or concerned about our future?

Its hard to be sure how the drama of our world will unfold but we are so powerful and capable when we work together, heart and soul, it is hard to imagine goodness wont prevail. There may be no escaping some spiritual dimension, good versus evil, in our global situation, where we must make choices. If people can relate as friends we may do wonders to discover more truth and potential together, removing manipulative hostile and divisive influences from among us, to realise our potential. To do this we may need to explore our common sense principles, with care and trust in each other, leading ourselves in **hope** to be part of solutions not problems.

Robert Burns (1759 to 1796) Great national bard of Scotland, declared a vision in stirring words, despite all the grief we have endured, a time will come when we shall all appreciate and enjoy our kinship:

*"...Then let us pray that come it may, as come it will
for a' that, that sense and worth, o'er a' the earth,
shall bare the gree an' a' that. For a' that, an' a' that,
it's comin yet for a' that, that man to man the world
o'er, shall brithers be for a' that."* (From a man's a
man for a' that, written in 1795).

Evidence Page No.1 - Mask Dangers

The two items on this page show clearly that masks trap and concentrate bacteria with catastrophic risks which should never be encouraged or mandated.

1918/ 19 Spanish Flu Pandemic

Most died because of wearing masks causing a more fatal secondary issue of bacterial pneumonia

Just in.

In 2008, Dr. Anthony Fauci co-authored a paper about the Spanish Flu Epidemic that rates as the most devastating modern pandemic. It swept the entire planet in the wake of the First World War and caused millions of deaths.

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC2599911/>

So in studying this major and actual pandemic, what did Dr. Fauci and his colleagues find?

They discovered that most of the victims of the Spanish Flu didn't die from the Spanish Flu. They died from bacterial pneumonia. And the bacterial pneumonia was caused by.... wait for it, wait for it.... wearing masks.

The intention then, as now, was to halt the spread of the disease by wearing masks, but what actually happened was that an "unobserved" pandemic of bacterial pneumonia was unwittingly created instead.

And Dr. Anthony Fauci knows this, because he wrote about it in 2008.

Think about that the next time you see an overflowing garbage container filled with used masks --- or find a used mask jammed into your grocery cart or just lying like a dirty diaper in the middle of a parking lot.

A huge public health hazard and the threat of a non-viral pandemic of bacterial pneumonia is being fostered by the use of masks and Dr. Anthony Fauci knows it.

He has known that since at least 2008.

Dr Anthony Fauci may not be known to many people. He is one of the most influential leading American doctors who supported and helped enforce W.H.O rulings for Covid lockdown measures including mandates to wear masks and is connected to funding of the Wuhan Covid 19 lab.

Brain Damage From Masks CANNOT BE REVERSED

🕒 October 12, 2020 👤 James Fetzer *Covid-19 masks are a crime against Humanity and child abuse*

The following is a **transcript of the highlights** (by Henna Maria) from Dr. Margarite Griesz-Brisson's recent extremely pressing video message, that was translated on-air from German into English by **Claudia Stauber**. Video at the end of the transcript.

See whole article via QR Code 'Masks Brain damage kids' on page 18

Dr. Margarite Griesz-Brisson MD, PhD is a Consultant Neurologist and Neurophysiologist with a PhD in Pharmacology, with special interest in neurotoxicology, environmental medicine, neuroregeneration and neuroplasticity. This is what she has to say about masks and their effects on our brains:

"The rebreathing of our exhaled air will without a doubt create oxygen deficiency and a flooding of carbon dioxide. We know that the human brain is very sensitive to oxygen deprivation. There are nerve cells for example in the hippocampus, that can't be longer than 3 minutes without oxygen – they cannot survive. The acute warning symptoms are headaches, drowsiness, dizziness, issues in concentration, slowing down of the reaction time – reactions of the cognitive system.

However, when you have chronic oxygen deprivation, all of those symptoms disappear, because you get used to it. But your efficiency will remain impaired and the undersupply of oxygen in your brain continues to progress.

We know that neurodegenerative diseases take years to decades to develop. If today you forget your phone number, the breakdown in your brain would have already started 20 or 30 years ago.

While you're thinking, that you have gotten used to wearing your mask and rebreathing your own exhaled air, the degenerative processes in your brain are getting amplified as your oxygen deprivation continues.

The second problem is that the nerve cells in your brain are unable to divide themselves normally. So in case our governments will generously allow us to get rid of the masks and go back to breathing oxygen freely again in a few months, the lost nerve cells will no longer be regenerated. What is gone is gone.

[..]I do not wear a mask, I need my brain to think. I want to have a clear head when I deal with my patients, and not be in a carbon dioxide induced anaesthesia.

[..]There is no unfounded medical exemption from face masks because oxygen deprivation is dangerous for every single brain. It must be the free decision of every human being whether they want to wear a mask that is absolutely ineffective to protect themselves from a virus.

For children and adolescents, masks are an absolute no-no. Children and adolescents have an extremely active and adaptive immune system and they need a constant interaction with the microbiome of the Earth. Their brain is also incredibly active, as it has so much to learn. The child's brain, or the youth's brain is thirsting for oxygen. The more metabolically active the organ is, the more oxygen it requires. In children and adolescents every organ is metabolically active.

To deprive a child's or an adolescent's brain from oxygen, or to restrict it in any way, is not only dangerous to their health, it is absolutely criminal. Oxygen deficiency inhibits the development of the brain, and the damage that has taken place as a result CANNOT be reversed.

Evidence Page No.4 - Covid19 Model Fraud

Where Professor Lockdown went so badly wrong

By **Will Jones** - March 22, 2021

<https://www.conservativewoman.co.uk/the-covid-models-were-tested-against-the-real-world-and-failed/>

AS WE pass through the anniversary of the week in which our freedoms became circumscribed by the outputs of a physicist's **dodgy** computer model, Phillip W Magness at the American Institute for Economic Research has **revisited** Imperial College London's infamous **Report 9** to remind us quite how wrong it was.

He writes: 'Ferguson's model presented a range of scenarios under increasingly restrictive nonpharmaceutical interventions (NPIs). Under its "worst case" or "do nothing" model, 2.2million Americans would die, as would 510,000 people in Great Britain, with the peak daily death rate hitting somewhere around late May or June. At the same time, the ICL team promised salvation from the coronavirus if only governments would listen to and adopt its technocratic recommendations. Time was of the essence to act, so **President Donald Trump** and **UK Prime Minister Boris Johnson** **both listened**. And so began the first year of "two weeks to flatten the curve".

It took a little over a month before we saw conclusive evidence that something was greatly amiss with the ICL model's underlying assumptions. A team of researchers from Uppsala University in Sweden **adapted Ferguson's work to their country** and ran the projections, getting similarly catastrophic results. Over 90,000 people would die by summer from Covid-19 if Sweden did not enter immediate lockdown. Sweden never locked down though. By May 2020 it was clear that the Uppsala adaptation of ICL's model was off by an order of magnitude. A year later, Sweden has fared no worse than the average European lockdown country, and significantly better than the UK, which acted on Ferguson's advice.

'Pressed on this unexpected result, **ICL tried to distance itself** from the Swedish adaptation of its model in May. The **records from the March 21 supercomputer** run of the Uppsala team's projections belie that assertion, linking directly to Ferguson's March 16 report as the framework for its modelling design. But no matter – the ICL team's own publications would soon succumb to a real-time testing against actual data.

'The verdict is in. Imperial College's Covid-19 modelling has an abysmal track record – a characteristic it unfortunately **shares with Ferguson's prior attempts to model** mad cow disease, swine flu, avian flu, and countless other pathogens.'

Not only did Ferguson's modelling overstate mortality in the absence of restrictions, it also grossly exaggerated the effectiveness of restrictions in reducing deaths.

Though models that justified unquestioned harmful lockdowns are trashed we still suffer emergency lockdown measures which is criminal. See article via this QR Code.

Evidence Page No.5 - HCQ Known Effective Since 2005

Virology Journal, official publication of Dr. Fauci's National Institute of health, published a **blockbuster article**, August 22, 2005, under the heading, get ready for this; **"Chloroquine is a potent inhibitor of SARS coronavirus infection and spread."** This shows proof from 15 years ago, that Hydroxychloroquine was well known to be effective and safe as a cure or preventative medication, and therefore there was never any reason to not have it mass available to all populations, especially given it is so cheap to prevent any need for harmful lockdown consequences. The fact this known safe cure was not even trialled or offered en masse in the UK to question the need for lockdowns, should prompt class action lawsuits from all populations for all criminal harm caused by governments, authorities and all medias who suppressed and censored this option and imposed and enforced lockdown restrictions. The liability for terrible avoidable harm caused is massive and our entire governance may be swept into prosecution. Many doctors and countries have used HCQ protocols and proven its' effectiveness but that knowledge has been suppressed and withheld criminally.

Abstract

Background: Severe acute respiratory syndrome (SARS) is caused by a newly discovered coronavirus (SARS-CoV). No effective prophylactic or post-exposure therapy is currently available.

Results: We report, however, that chloroquine has strong antiviral effects on SARS-CoV infection of primate cells. These inhibitory effects are observed when the cells are treated with the drug either before or after exposure to the virus, suggesting both prophylactic and therapeutic advantage. In addition to the well-known functions of chloroquine such as elevations of endosomal pH, the drug appears to interfere with terminal glycosylation of the cellular receptor, angiotensin-converting enzyme 2. This may negatively influence the virus-receptor binding and abrogate the infection, with further ramifications by the elevation of vesicular pH, resulting in the inhibition of infection and spread of SARS CoV at clinically admissible concentrations.

Conclusion: Chloroquine is effective in preventing the spread of SARS CoV in cell culture. Favorable inhibition of virus spread was observed when the cells were either treated with chloroquine prior to or after SARS CoV infection. In addition, the indirect immunofluorescence assay described herein represents a simple and rapid method for screening SARS-CoV antiviral compounds.

MISSING CHILDREN'S STATISTICS

One Missing Child Is One Too Many

RAPID EMERGENCY CHILD ALERT SYSTEMS

The lack of a common definition of "missing child," and a common response to the issue, results in few reliable statistics on the scope of the problem around the world. Even with this challenge, we know that:

In **Australia**, an estimated **20,000** children are reported missing every year.

Australian Federal Police, National Coordination Centre.

In **Canada**, an estimated **45,288** children are reported missing each year.

Government of Canada, Canada's Missing – 2015 Fast Fact Sheet.

In the **United States**, an estimated **460,000** children are reported missing every year.

Federal Bureau of Investigation, NCIC

These website screenshots show over 900k min. children going missing from just 9 countries out of a global 209 countries and territories which could mean some estimates of over 8 million missing globally p.a. is accurate. The 900k documented children shown in these 9 countries excludes the many more undocumented. If we consider some innocent / mysterious tragedies might occur and some be found, that may account for only a few thousand lost children p.a. We then have millions of children disappearing on an industrial scale of some evil activity or market being served? Dare we people of the world, consider the uncomfortable implications?

Remedies and Support

These last pages are recurring best advice and guidance points we chose to help people resist challenges, survive issues, cope with stress and navigate this difficult time, to emerge into a brighter healthier potential future. Our bodies and minds may be under an array of assaults and stresses we need to be conscious of, to seek remedies / support to prevent being a victim. These pages aren't medical advice, please check with a qualified adviser.

Support Group gatherings inspiring interest, learning and mobilised action **Support** groups like; <https://t.me/astandintheparkuk>, 'A Stand In the Park' gatherings happen on Sunday mornings 10 to 11.30am all over UK to meet, share info, questions and get involved. Telegram platform is best place to see notices mobilising global positive action rallies against apathy and fear.

Knowledge and Principles

Knowledge is key to our immunity from manipulation by understanding more about what helps our health, sensitivity, clarity, discernment and consciousness about friends vs enemies, poison vs tonic, truth vs lies. We can learn to help ourselves and others more as a force for good, like a warrior of light, but first we need to be a real seeker of truth, or we like misled cells, may mistakenly attack allies and our self, through bad choices or actions. Healthy **principles** can become more easily appreciable through greater **knowledge** which also helps us recognise lies and Trojan horse hidden agenda dangers. The World Freedom Alliance group is one of many resources to help grow **knowledge** and appreciate some vital **principles**.

Vital Health, Balance, Attitude and Fitness

Our ability to discern, take on board and act upon good learning, depends upon our state of **health** in body, mind, **attitude** and **balanced** condition of subtle energies of our being or spirit. Appreciating effective remedies and support could help us achieve greater **health**, **balance** and **fitness** so we are more capable, resilient and dynamic with stamina, to not give up. If we improve the nourishment of our body, mind and spirit we can be better in our overall state of being to see, discern, feel, introspect, learn and then understand more deeply, our challenges versus our natural potential. Better food, water, exercise, vitamins, minerals, treatments, fresh air, time in nature and time with friends can clarify, rebalance and empower our **health**, **attitude** and consciousness, to overcome most challenges.

Support from, Friends, strangers and relationships

Real **support** of course, is not about mere easy agreement, it is a caring endeavour that takes trouble to encourage the best, not easiest choices, actions and understandings. Being in each others company, speaking freely to share our deepest insights, has a natural and heartening dynamic hive mind collectivity magic, where we can all be heard and supported even in our subtle energy health. The strengths and weaknesses of individuals can come together in close proximity and openness, to help everyone whether **friend** or **stranger**. **Strangers** can be great **friends** we just haven't met yet. With an honest open heart, endeavouring to just be ourselves, 'warts and all', we encourage others to do the same, enabling great supportive and enjoyable **relationships**. If however we allow pretences, incited triggered feelings or divisive manipulations to rule our behaviour, we may not be our self and miss out on good **supportive relationships**, or worse, become a hostile disruptive agitator, like an enemy to people who could be friends.

Detoxing mind, body and spirit whilst fighting Covid19

There are so many unavoidable poisons, **toxins**, heavy metals and radiations we are impacted by, that erode or disrupt our health endlessly. We may be able to avoid, shield from or choose against some, but many we have to manage and continuously purge from our bodies. There is also possibilities of nanotechnology, forever chemicals deposits and smart dust programmable particles in our bodies, joining a cocktail of issues needing purged for our optimal health. Covid19 as an engineered virus bioweapon plus mutations may also be shedding or transmitting spike proteins like **toxins** through populations which can be purged and cured if we insist known treatments are not criminally withheld by governments, doctors and medical leaders.

Various treatments and all things natural versus synthetic

This battle to realise our potential seems like all things good and natural versus all things synthetic, Frankenstein and evil. Consider aligning and surrounding yourself with all things natural, wholesome and good, if that is what you want to prevail. Many treatments can help holistic health and healing; exercise, semi-fasting, therapeutic massage, warm salty water foot soaks, Aromatherapy, Homeopathy, liver cleanse, steam inhalations, Herbalists, Naturopathy and many products; tonic water, pine needle tea, detox tea, boron, chlorella, probiotics, CBDs, black seed and oregano oils.

New leadership culture

It seems obvious now that most of our problems across all sectors, come from **leaders** that have nefariously assumed power over us or have been installed to manage us towards secret agendas, serving hidden masters and beneficiaries. A remedy we need to explore, against our challenges, is therefor a new trustworthy **leadership** culture, for every aspect of life. Ordinary people must step forward in large numbers ready to take a turn serving their community, if they are chosen through fair elections, with tested proven competency. It would be foolish to trust choosing anyone from any existing **leadership** to really help us, since they have all been permitted **leaders**, complicit in our problems. If enough good people work hard together to serve their community selflessly, we can establish a new **leadership** culture and easily do better than our rigged history.

Peace, justice and reconciliation

If we the ordinary people of the world are in a war to realise our natural potential against evil DS elite, hostile trans human degradations, we must hope we win and see **peace** soon. If all things natural wins over all things Frankenstein, we may see an amazing explosion of fruitfulness from all the withheld bountiful potential of humanity, released from it's captivity. All criminal captors of our lives and potential, will need brought to **justice** fairly, swiftly and visibly so we can move on with better lives soon. **Justice** needs to be thorough which may dwarf huge Nuremberg trials proceeding World War 2, and we should perhaps prepare ourselves for a necessarily big process with shocking reveals. As soon as punishments seem fittingly complete, we need to then move on to **reconcile** any known harm among us and around our lives, to exorcise unwanted remnants of pain, crimes and ill feeling. We may need to support each other a lot, to really forgive and **reconcile** trauma that comes to light, so we move on together to be part of positive caring solutions and cultures, not recur old problems.

Deep Relaxation, Peace and Meditation

To counter, shrug off and recover from exertions of our day or challenges, we can also develop deep **relaxation** practices in addition to healthy sleep habits. Investing time regularly to let yourself naturally unwind and settle at **peace**, lets impacts on your senses, body, mind and energies heal, be resolved or exorcised from your being. This can prevent debilitating and vulnerable dissensions into fear, hatred, nihilism or hardened cynicism and hopelessness. It can also wake dynamism and hopeful engagement in the world from lazy, uncaring disinterest. Ideally barefoot in nature, with no disturbing technology, we can let our senses unfurl and expand from any impacted state, to find their fuller shape and condition, free from draining agitations, disturbances and distractions. Gentle stretches, quiet walks or sitting, big **relaxing** breaths and remembering to smile, help us transition into simple deeply beneficial **relaxation**. Such practices can be developed alone or in company, to gather ourselves, our energies and attention, back from wanderings, into the present and peace. Managing our own inner peace can bring greater clarity, focus and integration of all our senses and overall consciousness. Fractured, troubled and drained energies or instincts can be settled and restored to then support our own greater health and self mastery discipline, free of dependencies. Through practice we can develop a greater genuine spiritual fitness, to withstand impacts and stresses upon us and an empowered contemplative capacity to have deeper heartfelt inner reasoning. Improved subtle health, self awareness and alert consciousness mastery help us instinctively recognise and utilise remedies against all challenges. When we are truly at **peace** and quiet with our self, in a steady and alert, settled state of being, we can experience **meditation** beyond mere **relaxation**. In this state we enjoy our highest consciousness where inspirations, insights, reconciliations and new guidance comes to us most clearly. If we are minded to pray this our most heightened state, clarifies and empowers heartfelt expressions. Any truth to a coming global opportunity season for a new renaissance, great awakening or spiritual ascension may be appreciated and understood better through a **meditative** perspective.

A positive natural **vision** versus DS contrived evil agenda

Do people share a hopeful **vision** for our future, versus the DS New World Order dark spellbinding? The heartfelt **vision** of billions, aware of DS plans can remedy all the ills of an evil elite few, to manifest a bountiful bright future, but we need to **envision** that together, for it to manifest.

July 2021 challenges vs potential, discussion

This booklet is a minimum, people must know, to navigate choices.

This booklet created by many anonymous volunteers serves to bring people together for evidenced reasonable discussions about current real hostile challenges we all face, working against our natural potential.

There is so much disagreement, cynicism, stress and polarised views not helping us mobilise to face challenges together and realise our potential.

We are better than this. Lets seek to make better choices and decisions through sincere uncensored discord, common sense, sharing knowledge and insights with an appreciation of the connected fate of our lives.

This booklet tries to avoid using emotive language, as it aims to present key evidence and common points of discussion, to serve as a reference, helping conversations between friends, new and old, explore many facts and difficult issues, to reach unifying and genuinely helpful conclusions.

As ordinary people we cannot easily recount all the key exact details needed to explain and back up our understandings of big issues, so this pocket compilation could be a big help in that challenge for some people.

This evolving pocket guide aims to be a concise yet thorough enough useful resource against fraud, lies and ignorance, that ruin, hide or limit our potential and rights. Hopefully readers will value the content and explore shared links and evidence, to help develop their own certainties about the hostile challenges, agendas and enemy threats to our future.

Great care is taken to research, check and review the content of this publication to be fair and verifiable. New credible details that come to light with regards to all we discuss, will be included in later productions. This booklet is produced in good faith, based on available knowledge and is never intended to incite any type of division, violence, crime or hatred.
